# ACCESSORIES

---

## Wood-fired oven

---

**818 €**

---

A traditional way of heating water for those who value natural solutions.

## Rotating tray

---

**127 €**

---

A practical tray mounted on the housing allows you to conveniently place your phone, drink, or glasses while relaxing.

Thanks to the swivel arm, you can freely adjust its position to suit your current needs.

## Lid lifter

---

**226 €**

---

A dedicated stand facilitates removal of the heavy thermal cover and protects it from damage and dirt. The support system makes operating the tub much easier and possible for one person.

## Wi-Fi module

---

**536 €**

---

Control your SPA tub from your smartphone

## Accessories available only in the Simple bath

---

## Thermal insulation cover

---

**282 €**

---

A durable cover made of materials with high insulating properties. It reduces heat loss, protects water from contamination, and increases safety by preventing unauthorized access to the tank.

## Sand filter

---

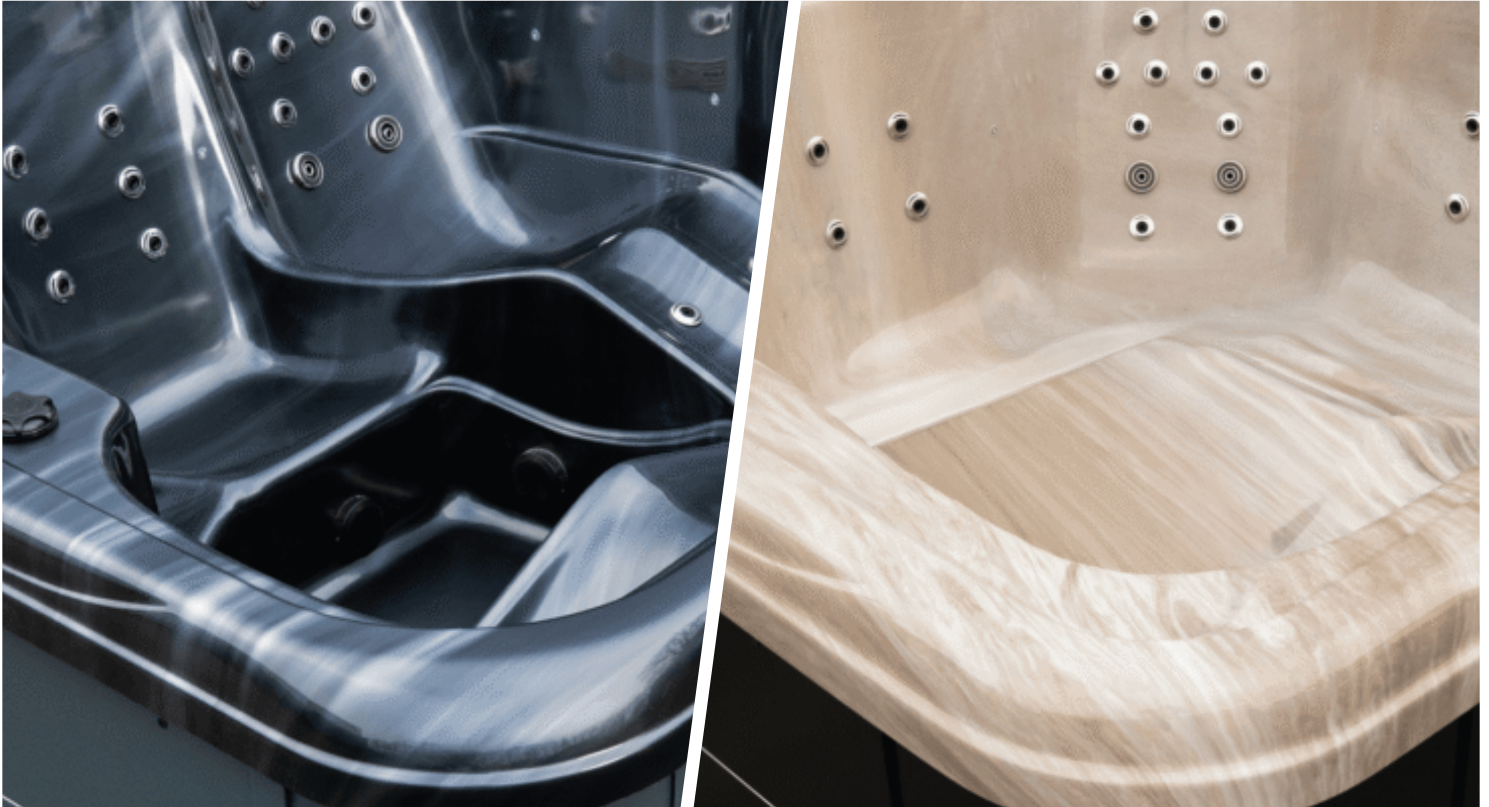

**339 €**

---

A water filtration system that removes impurities and helps keep your hot tub clean for longer – a practical and low-cost solution.

## Insert

The interior of our **SPA bathtub** is made of the highest quality acrylic, which is characterized by exceptional smoothness and resistance to discoloration and the effects of pool chemicals. Ergonomically designed basins ensure maximum bathing comfort, and their durability guarantees the impeccable appearance of the device for many years.

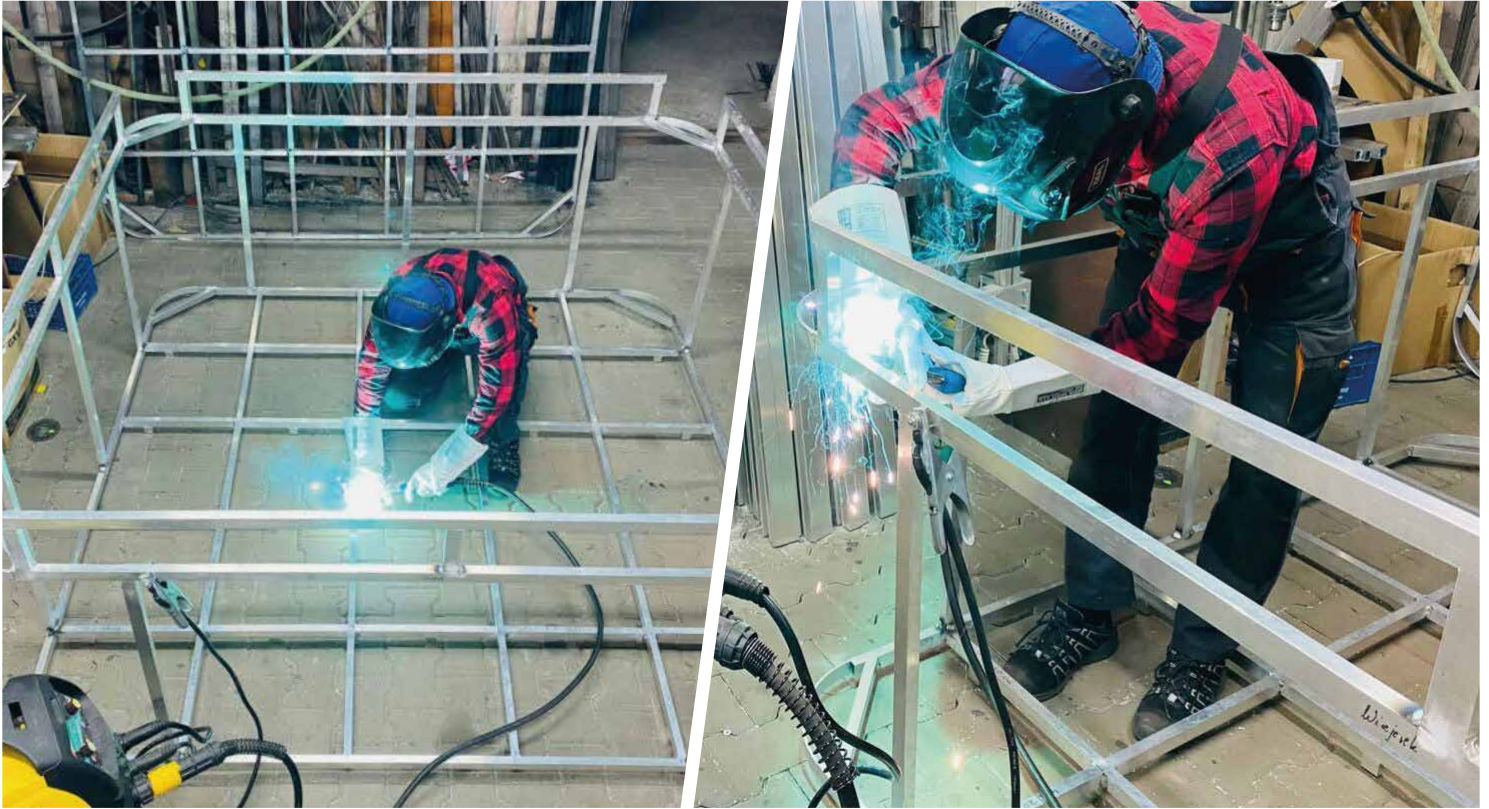

## Facade / cladding

We offer stylish exterior finishes tailored to your garden: modern and maintenance-free **composite** or natural, thermally modified wood (**thermo wood**). Both variants are highly resistant to changing weather conditions and give the SPA tub a luxurious character.

## Construction

A solid foundation **The garden spa jacuzzi** tub has a lightweight yet extremely durable aluminum construction that is completely corrosion-resistant. The use of a sealed aluminum floor combined with a PVC panel effectively isolates the device from ground moisture and protects the interior from pests.

## Insulation

Thanks to the use of advanced polyurethane **foam insulation**, our SPA bathtubs offer excellent thermal efficiency. Full insulation of the tub minimizes energy loss and significantly reduces operating costs, maintaining high water temperatures even on cold days.
